

# Stake Hub (STKHB)

May 15, 2021

## Stake Hub Token

---

**STKHB** is BEP20 staking token designed to be staked in conjunction with traditional crypto assets (BTC, ETH, LTC, etc.) for a no principal risk, high APY yield on StakeHub.Finance. **STKHB** has a fixed 30.016% APY when staked for **STKHB** returns, with APY yields up to 60% APY on future staking contracts.

**STKHB** strives to offer users the benefits and high yield potentials from DeFi interactions on traditional crypto assets while removing principal risks that are associated with liquidity token provisions, providing consistent, no principal risk of staked assets.

## Vision

---

1. **Help the Everyday User** – StakeHub.finance strives to provide an easy-to-use platform for all players in the crypto space. DeFi does not have to be confusing.
2. **Create New Opportunities** - By lowering the entry point to DeFi, Stake Hub is creating opportunities for crypto holders that may not have existed before.
3. **Provide Consistently High APY** - Staking with StakeHub.finance is low risk, high reward. Your staked assets are secured and can be withdrawn at any time.

## Governance

**STKHB** was created with an initial, stake-mintable supply of 1,000,000,000 tokens.

### Distribution Percentages & Amounts –

- Project Developers –
  - Jordan Murphy (125m) 12.5%
    - 0xe40e0B7c54B7B635BFCAc9925ae86784Ec775F98
  - Jonah Berman (125m) 12.5%
    - 0x9088752792d46c02520D1281D36011FAF3628144
- Project Development Fund
  - (150m) 15%
    - 0x457CC00f7B23217CF8491580C2b22BA834073EF5
- Exchange Liquidity
  - (600m) 60%
  - Un-used Liquidity
    - 0x457CC00f7B23217CF8491580C2b22BA834073EF5
  - Pancake Swap Liquidity Pool
    - 0x8F876550fc9c12e29B01d4DfAE62d51287365FD1
  - Sushi Swap Liquidity Pool
    - 0x9fa34316875a77603e70ed16a07fde655c628b40

**STKHB** was created with two main functions. **STKHB** stake-holder voting governance & **STKHB** staking rewards.

#### 1. **STKHB** Voting –

**STKHB** stake holders will be entitled to a vote equal to the weight of their **STKHB** total stake vs. total **STKHB** staked minus founder stakes. **STKHB** developers will propose votes for future contract integration, website updates, etc. but will not be entitled to vote on the outcome of the proposals.

#### 2. **STKHB** Staking Rewards –

**STKHB** has a built-in daily distribution of staking rewards. Rewards are paid at a rate of **.000822367% daily** for a total of **30.0163955% annually**.

# Road Map

---

## 1. 2021

Q.2

- Deployed BEP20 smart contract **STKHB** tokens to the BSC network
- Created liquidity on Pancake Swap to enable trading of our token

Q.3

- Implement Beta Staking Program
- Expand liquidity pool presence
  - Add pairs on Sushiswap

## 2. 2022

Q.1-4

- Stake Hub contract development for **STKHB + Traditional Crypto Assets**
  - Community Voting for pairs like
    - WBTC – STKHB
    - WETH – STKHB
    - BNB - STKHB
- Stake Hub platform development
  - Upgrade UI Experience
  - Marketing to further platform adoption
- Beta test auditing
  - Audit token function / Identify potential issues prior to release

## 3. 2023

Q.1

- Release Launch (Subject to delays upon outcome of STKHB Beta)

Q.4

- Traditional Exchange Listing (Subject to delays upon outcome of STKHB Beta)
